

Gynecology Today  
PAYMENT POLICY

Our mission at *Gynecology Today* is to provide the best gynecologic healthcare and treatment options for you. If you any have labs or studies performed that are not a routine part of an annual screening visit, a follow up visit is required to discuss these results.

Examples include but are not limited to: hormone levels, other blood draws, certain STI tests, all biopsies (vulvar, vaginal, cervical, and endometrial), all bone density scans, certain abnormal mammograms or ultrasounds, and other specially ordered studies such as MRIs and CT scans.

If your insurance company requires a co-pay from you, then this will be collected at every visit. Also, if you have a deductible amount that is to be met each year, then this may be collected at the time of the visit (or if unknown at the time of visit, then you will receive a bill for the amount applied to your deductible). This is an agreement between you and your insurance company. If you have questions regarding your co-pay or deductible, please contact your insurance company.

Thank you from all of us at *Gynecology Today* for allowing us to participate with you in your gynecologic healthcare.
